

We appreciate our Project Sponsors, funding contributions to help support the objectives of the project and help to cover operational and outreach costs augmenting the resources the OWASP.org foundation provides. The OWASP Top 10 for LLM and Generative AI Project continues to maintain a vendor neutral and unbiased approach. Sponsors do not receive special governance considerations as part of their support. Sponsors do receive recognition for their contributions in our materials and web properties.

All materials the project generates are community developed, driven and released under open source and creative commons licenses. For more information on becoming a sponsor [Visit the Sponsorship Section on our Website](#) to learn more about helping to sustain the project through sponsorship.
